

OFFSITE BACKUPS

Key Features

- ✓ Automatic backup
- ✓ Same encryption as used by online banking
- ✓ HIPAA compliant
- ✓ SAS 70 Type II certified solution
- ✓ Two data centers on opposite coasts

Benefits

- ✓ Backups run on schedule - no tapes to change or drives to swap
- ✓ Files stored off-site for ultimate security
- ✓ Multiple revisions allow you to restore to prior point in time

Worry-Free Backups and Fast Restores

Relax. We'll handle everything.

Our backup service is fully managed. It's automatic, and we monitor it for you.

Support

Technical support is easy. Send e-mail or call us. We will resolve your issue quickly.

Security & Encryption

With Fortress Online Backup, your data is always protected. Files are encrypted using the same encryption used by your bank and stored in duplicate secure data centers in Boston and Los Angeles.

Unlimited Revisions

Ever wish you could go back to last Monday's version of a file? With our solution, you can store unlimited versions of the same file and restore any previous version when needed.

Restore Files Anytime

Backups are useless if they can't be restored quickly and easily. Our restore system is available 24/7 and downloads are quick.

Logs & Reports

How do you know your backups really worked? Fortress Online Backup's logs and reports let you know what was backed up, when it was backed up, and how much storage space you are using. If you want even more assurances, you have the option to receive automated email notifications on every successful backup.

FORTRESS ONLINE BACKUP IS SAS 70 CERTIFIED YOUR PEACE OF MIND IS IMPORTANT TO US.

What is SAS 70?

SAS 70 is an acronym for Statement on Auditing Standard 70. It is an accounting standard developed by the American Institute of Certified Public Accountant that audits the internal controls of service organizations. After rigorous evaluation and testing, an independent auditor issues a report, which includes the auditor's opinion as to whether the service organization has the proper internal controls and security safeguards in place when processing or hosting customer data.

Why is SAS 70 Important?

SAS 70 compliance indicates that an organization is fairly representing the controls and security measures that it has in place for safeguarding customer information. By having the audit performed by an independent third party it provides transparency into the company and gives the organization's customers assurance that the proper protocols are being used to maintain the privacy of their information.

SAS 70 Certification

The SAS 70 audit included an in-depth evaluation of the effectiveness of the organization's internal controls and its compliance to these controls as it relates to the handling of customer data.

The audit was performed by SAS 70 Online, a licensed CPA firm performing SAS 70 Auditing Services nationwide.

HIPAA Compliance and Fortress Online Backup

Fortress Online Backup can help organizations meet HIPAA compliance requirements, specifically those of the Security Rule.

Fortress Online Backup is an online backup, archiving and recovery solution that automates the process of securely backing up electronic data and file recovery. Fortress Online Backup was created, with healthcare providers in mind, to satisfy the broad need for a safe, reliable, and cost-effective method of backing up data offsite and allowing full file restoration at any time from any authorized location.

For more information, see our whitepaper that addresses HIPAA compliance in detail.

OFFSITE BACKUPS

Pricing

Our pricing is simple – Pick either Gold or Economy level service. Monthly charges are based on the amount of storage used.

Gold Plan

Our Gold plan includes all monitoring, training, setup and recovery support for your backup system at no extra charge.

Economy Plan

Our Economy plan includes backup monitoring only. Support, training, setup and recovery support is billed at our standard rate of \$90 per hour.

Quota	Monthly Price	Extra GB	Monthly Price	Extra GB
4 GB	\$9	\$2.70	\$9	\$2.00
10 GB	\$23	\$2.60	\$17	\$1.90
25 GB	\$57	\$2.50	\$40	\$1.80
50 GB	\$110	\$2.40	\$75	\$1.70
100 GB	\$205	\$2.20	\$140	\$1.60
150 GB	\$300	\$2.10	\$180	\$1.40

Example

A customer has 5 computers. When all backups are added up, the total space is **28 GB**, and they use our Gold plan.

We do not charge for extra computers. The charge would be \$57 per month for a 25 GB quota plus 3 extra GB at \$2.50 per GB. The total is \$64.50 per month with unlimited tech support, unlimited computers and free backup and restore assistance.
